

## **ORTHODONTICS SCREENING AND AWARENESS PROGRAMME-12.12.2019**

The Department of Dentistry, Trichy SRM Medical College Hospital & Research Centre aims to promote good oral health by spreading awareness regarding dental care among the public. Hence, an Orthodontic Awareness and screening camp was organized on 12.12.2019 at TRP College of Arts & Science; situated within the campus.

The camp started with a talk on general oral health conducted at Easwari Auditorium, attended by nearly 350 staff and students. The students and staff members present were educated about the various common dental issues and also regarding the preventive measures. They were further given an introduction into the various treatment options available in the department. The talk ended with a question and answer session where the queries of the participants were clarified. Following the talk the first batch of about 60 students were screened at the TRP College of Arts and Science; with special emphasis on correction of malocclusions.
