ABOUT THE COLLEGE

EASWARI ENGINEERING COLLEGE, a unit of SRM Group Educational Institutions for higher learning is functioning under "Valliammai Society". The society was founded in the year 1981, for promoting the cause of Quality Education by Dr. T.R. Pachamuthu an academician and Educationist. EEC instituted in the academic year 1996-1997, with the Approval of AICTE, New Delhi. The Institution is affiliated to Anna University, since 2002.

College offers 8 Undergraduate and 11 Postgraduate Programmes covering Engineering and Technology, Computer Applications and Management.

The Institution has a strong Industry Interaction with reputed National and International Organizations. The college has obtained ISO 9001:2008 Certification from TUV South Asia. The college is accredited by NAAC.

ABOUT THE DEPARTMENT

The Department of Civil Engineering has been established in the College since the year 2007-2008 with an annual intake of 60 students. The intake is increased to 120 from the academic year 2012-2013. Since inception, the Department of Civil Engineering has been imparting knowledge in 'General Engineering Concepts' and 'Studies' in 'Civil Engineering'. With the concurrent acquisition of technical skills in laboratories, inspiration and awakening of the young minds by vibrant teachers, the students are engaged intellectually, in the college. These critical contributions lead the students to explore and discover the wonders of their minds, which in turn synergize together and enable the students transform themselves to become true engineers and technologists.

Irrespective of their branch of study for specialization, students are guided in the first year to explore new ideas through original thinking and new layers of knowledge and abilities in mathematics, science and in engineering and technology. With character, dedication, brilliance effectiveness and enthusiasm, they become capable and also analytical in their approach and transform themselves as Engineering Professionals of the future, with ethics.

Beyond these basics, study of Engineering Mechanics, Fluid Mechanics, Strength of Materials, Solid Mechanics, Environmental Engineering and Sciences being relevant for Civil Engineering and Technology, are taught in the First Year Second Year, Third Year and in Final Year of study with a focus as per syllabus of Anna University.

ABOUT THE WORKSHOP

Workshop on Concrete Technology is a program in collaboration with ULTRATECH CEMENTS PVT LTD, Chennai. The main motto of this workshop is to create Institutional Social Responsibility by arranging an interaction between students and well experienced building contractors. The students will be able to understand the field practices easily and can clarify the arising issues during construction.

Schedule of the Workshop

Session 1: Good construction Practices

Session 2: Applications of M Sand

Session 3: Introduction to Building Products

Session 4: Construction of wall – Demo
